

Cheng Porchheng

BACKEND ENGINEER

Backend engineer at the **National Bank of Cambodia**, the country's central bank, working on **Bakong**, Cambodia's national payment system: load-testing applications for its public API, and testing its mobile app with Appium-based automated tests. Previously built **payment and e-commerce APIs** in REST and GraphQL, including **ABA Bank KHQR** integration.

EXPERIENCE

Backend Engineer

Aug 2026 – Present

National Bank of Cambodia (NBC) · Phnom Penh, Cambodia

- Test and performance engineering for **Bakong**, Cambodia's national payment system, operated by the central bank.
- Design and build, largely on my own, a **load-benchmarking platform** for the **Bakong public API (NestJS, Next.js, PostgreSQL, k6)**: graded, repeatable load tests comparable across releases.
- Test the **Bakong mobile application** using **Appium**-based automated tests.

Junior Web Developer

May 2026 – Jul 2026

Biz Solution Co., Ltd. · Phnom Penh, Cambodia

- Developed **REST and GraphQL APIs** for e-commerce platforms serving web and mobile clients.
- Maintained and extended existing production e-commerce projects, integrating **Odoo**, the **PayWay** payment gateway and **Redis** caching.
- Kept releases stable through thorough automated testing and performance tuning.

Backend Developer Intern

Jan 2026 – May 2026

Biz Solution Co., Ltd. · Phnom Penh, Cambodia

- Built **REST and GraphQL APIs** on the **Vendure** framework for a Khmer-language multi-vendor mobile e-commerce platform.
- Integrated the **ABA Bank KHQR** payment gateway with secure transaction flows and automated payment-status webhooks.
- Improved speed and reliability with **Redis** caching, **Firebase Cloud Messaging** notifications and **AWS CloudWatch** monitoring.

API & Web Developer Intern

May 2025 – Aug 2025

The Council for the Development of Cambodia (CDC) · Phnom Penh, Cambodia

- Built a **NestJS REST API** powering a meeting scheduling system, serving the mobile application.
- Developed a real-time **Next.js** web portal with live scheduling updates, shown on office LCD displays.

TECHNICAL SKILLS

languages	TypeScript, JavaScript, Python, Java, C++, Dart, SQL
backend	NestJS, FastAPI, Node.js, Vendure, REST, GraphQL
frontend	Next.js, Angular, Flutter
data & infra	PostgreSQL, Redis, Docker, AWS CloudWatch, Firebase (FCM), Cloudflare, DigitalOcean
testing	k6 load testing, Appium, Jest, automated testing, Postman
payments	KHQR integration, ABA payment gateway, PayWay, Odoo
tools	Git, Jira

EDUCATION

Bachelor of Computer Science
(Software Engineering)
Cambodia Academy of Digital Technology (CADT)
2023 – 2026 · Completed

Japanese IT Pathway Program
American University of Phnom Penh (AUPP)
and NEXTMAKE Inc.
2025 – 2027 · Ongoing
